### 2019 EDITORIAL PLAN

**OUR CONTENT WILL TRANSFORM YOUR CAMPAIGN**

*We remain dedicated to providing timely, in-depth industry analysis for our readers, meaning your advertisement will be placed alongside valuable editorial content consumed by a loyal readership.*

- **We are objective and unbiased.**
  We produce content for our readers, giving our publication authority and credibility: Our editorial is editorial; not advertorial.

- **Our content is news-focused, reporting and analysing** what’s happening right now in the industry. Moving away from the traditional B2B practice of primarily covering product-based and content and company press releases, we are dedicated to providing unique editorial content that reacts to the ever-changing industry landscape. This results in a fresh magazine full of timely analysis tailored to the interests of decision-makers who need to stay informed.

- **This calendar shows a selection of topics** we have planned in advance for the year. Remember, we aim to be reactive so our content plans are subject to change in order to accommodate key developments in the industry. We publish detailed plans for each issue three months ahead of the publication date.

All adverts will be optimised for tablets and mobile devices in portrait view.
Please submit your advert according to the following specifications. If you need further information, please contact your client services executive and we’ll be happy to help.

**YOUR CONTENT**
The company insight article is an opportunity to share information about your company’s expertise and services with your peers. Aim to write a general introduction before moving on to more in depth details about a particular product or service that you offer. Bear in mind that a highly technical piece is inappropriate for the readership and the publication as a whole.

The article will be labelled ‘Company Insight’. We will lay the page out with a headline, stand first, main text, pull quote, contact details and supporting elements such as tables or images. You can write the article in prose form, or in a questions & answers style.

**ARTICLES MUST BE:**
- Informative: they must add to the knowledge base
- Original: they should not, ideally, have been published previously
- Appropriate for the readership in terms of register and tone.

**PLEASE BEAR IN MIND THE FOLLOWING POINTS:**
- The maximum word count for the article body is 800 words. In addition, please supply a headline, standfirst (introduction to the article, up to 50 words) and captions for your images.
- We encourage you to submit up to three supporting elements such as images and tables as this will make for a more visually interesting page.
- We will not publish company logos in these articles.
- The sub-editor will cut anything they consider inappropriate, irrelevant, libellous etc.
- They will also correct grammar and spelling, and may restructure the article if necessary.
- All text must meet our house style to ensure quality and consistency.
- Contact details will consist of your company name and up to two further pieces of information, for example website address, telephone number or email address.

**ISSUE SPONSORSHIP**
If you have purchased a full issue sponsorship as part of your package, please supply your company logo in .eps format in addition to the other materials.

**SUBMISSION:**
- You can submit your article by email in a Word document.
- Please provide all images in .tif, .jpg, .png or .eps format at high resolution (minimum of 300dpi).
- All images must be supplied as separate image files. We can’t accept images embedded in Word documents or Outlook messages as the image quality would not be sufficient.
- Please email materials to copy@pmgoperations.com
- Please note: our email gateway will block emails if they are over 8MB. If your files are too big to submit by email you can upload them via a file sharing service (for example www.wetransfer.com or www.dropbox.com)

**POST SUBMISSION**
You will receive a fully laid-out proof of your article for review prior to publication.

We reserve the right to return articles that do not meet the standards of the publication.
