YOUR CONTENT

The company insight article is an opportunity to share information about your company's expertise and services with your peers.

Aim to write a general introduction before moving on to more in depth details about a particular product or service that you offer.

Bear in mind that a highly technical piece is inappropriate for the readership and the publication as a whole.

The article will be labelled 'Company Insight'. We will lay the page out with a headline, stand first, main text, pull quote, contact details and supporting elements such as tables or images. You can write the article in prose form, or in a questions & answers style.

ARTICLES MUST BE:

- Informative: they must add to the knowledge base
- Original: they should not, ideally, have been published previously
- Appropriate for the readership in terms of register and tone.

PLEASE BEAR IN MIND THE FOLLOWING POINTS:

- The maximum word count for the article body is 800 words. In addition, please supply a headline, standfirst (introduction to the article, up to 50 words) and captions for your images.
- We encourage you to submit up to three supporting elements such as images and tables as this will make for a more visually interesting page.
- We will not publish company logos in these articles.
- The sub-editor will cut anything they consider inappropriate, irrelevant, libellous etc.
- They will also correct grammar and spelling, and may restructure the article if necessary
- All text must meet our house style to ensure quality and consistency.
- Contact details will consist of your company name and up to two further pieces of information, for example website address, telephone number or email address.

- You can submit your article by email in a Word document.
- Please provide all images in **.tif, .jpg, .png** or **.eps** format at high resolution (minimum of 300dpi).

- Please email materials to **copy@pmgoperations.com**
- Please note: our email gateway will block emails if they are over 8MB. If your files are too big to submit by email you can upload them via a file sharing service (for example **www.wetransfer.com** or **www.dropbox.com**)
