

YOUR GLOBAL RORO SPECIALIST

AUSTRALIA

The Roll On/Roll Off Professional

The NMT Group is one of the biggest RoRo specialists in the world. As a 'global carrier to shippers' and a 'global shipper to carriers' we offer our clients competitive pricing and customized solutions with local support.

We like to control the cargo process and employ NMT port captains at major ports, issue our own bills of lading and independently operate our own services with NMT controlled tonnage or vessels.

Marine and RoRo shipping knowledge and experience are fundamental elements of how the NMT Group has been built, and our local customer service staff are available to discuss your requirements.

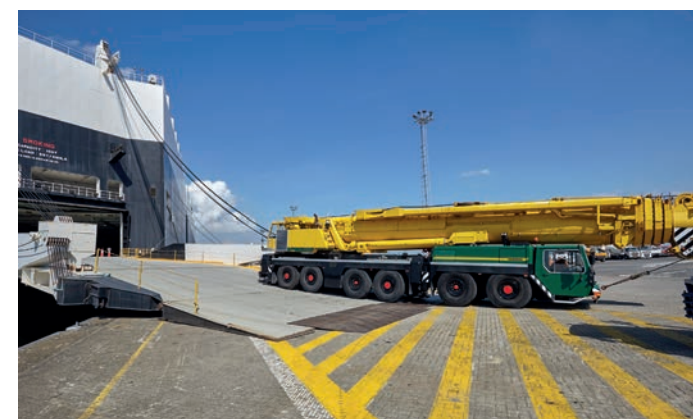

It is the 'NMT Way of Doing Business'

**The World's
Greatest Shipping
Company**

The Global RoRo Specialist

The NMT Group

Founded in 1999, the NMT group is an independent, highly specialised global Roll On/Roll Off (RoRo) shipping company and logistics provider with headquarters located in the Netherlands. NMT provides a service network via 30 dedicated own offices strategically located throughout the world and has representation in more than 50 countries.

With more than 35 years experience in international RoRo shipping, our highly experienced staff has the know-how to offer the highest quality service required to ship all rolling stock with optimal speed and care at competitive prices.

The Logistics Provider

NMT is also a logistics provider offering additional services to complement their global deep sea services. Road, air and sea transport can be combined in a package to offer the most efficient transport tool for all your particular requirements. NMT provides creative and innovative transport solutions making us the leader in our industry.

The Cargo

The NMT group specialise in the worldwide shipment of Roll On/Roll Off cargo. The type of commodities that NMT ships globally are for example, cars and trucks.

For non-rolling cargo, NMT offers their own roll trailers and lashings. This enables the loading of non-rolling cargo onto RoRo services in a safe and efficient way.

Your Global Transport Partner

From the start of NMT it was a clear ambition to grow NMT as a global player. The main driver behind this decision was that no matter where your business brings you, our customers will always experience personalised customer care, reliability and transport innovative solutions.

The NMT network now consists of 30 dedicated offices that are strategically located throughout the world. With a network of own offices and agents expanding over 50 countries, NMT is able to act and operate on a global scale to bring shipping solutions that suit the global shipping needs of clients from every corner of the world.

The Best Way To Move Your Cargo!

OCEANIA RORO TRADE ROUTES

MORE THAN SHIPPING – THE COMPLETE LOGISTICS PROVIDER

The business concept of the NMT Group does not fit under any known business tag. It is true that we act as 'global carrier to shippers' and 'global shipper to carriers' through our long-term commitment and partnership with a number of the global RoRo carriers. We issue our own bill of lading for the same. However, in addition, we independently operate our own services, sometimes with NMT controlled tonnage, sometimes chartered. We like to control the cargo process and even employ our own port captains in major ports.

Marine- and RoRo knowledge is a fundamental part and backbone of how the NMT Group has been built, and we will never compromise on this in the future. So, should someone want to tag our way of doing business, we will say it is the 'NMT Way of Doing Business'.
